Video conferencing for telehealth

Zoom for telehealth reliably delivers consistent clinical user experiences, seamlessly integrates into your technology and workflows, and keeps you connected and compliant. With high quality video, even in low-bandwidth environments, organizations can support healthcare teams and patients around the globe.

Expand patient care and communications

Improve patient outcomes

Expedite hospital staff and specialist collaboration for patient care with real-time video communications.

Maximize your resources

Utilize resources and hardware you already have and expand your capabilities and telehealth offerings.

Boost internal communications

Foster collaboration and face-to-face meetings, trainings, and recruiting with participants in any location.

Zoom solutions for healthcare

HD Video and Audio

Consistent high-quality video, even in low-bandwidth environments.

Compliance and security (/security)

Achieve HIPAA (signed BAA) and PIPEDA/PHIPA compliance with complete end-to-end 256-bit AES encryption.

Recorded session review

Save your meetings for consultation and review (local desktop recording with HIPAA BAA for clinical application, or in the cloud for non-clinical applications).

Enhanced collaboration features

Collaborate with other doctors and specialists by annotating directly on the shared screen so that notations are visible to all attendees.

Integrates seamlessly with Epic

Launch a video visit directly from the Epic applications' telehealth workflows.

Medical device integrations

Examine and treat patients virtually with far-end camera control, EHR and medical device integrations, and intraoperatively in telehealth carts.

Expand telehealth consultations and treatment

Connect physicians, patients, and specialists for regular or urgent care appointments. Easily screen share imaging and test results with all participants.

Watch (<https://www.youtube.com/embed/6gUH1fa565M?rel=0&autoplay=1&showinfo=0>) this video on how Phoenix Children's hospital delivers real-time patient care with Zoom.

Health education for staff and patients

Reduce employee travel with cost-effective continuing education and ongoing training for healthcare professionals.

Provide progressive health education and preventative care for high-risk patient populations.

Read this (</docs/doc/Video%20Communications%20in%20Healthcare.pdf>) white paper that discusses the trends of video communications in healthcare.

Virtual counseling

Expand behavioral and mental health programs by providing virtual behavioral and mental health in 1-1 or group sessions that patients may join from their homes.

Read this (</docs/doc/Florida%20Hospital%20Case%20Study.pdf>) case study to learn how Florida Hospital uses Zoom in their carts and mobile clinics.

Immediate disaster response

Utilize video communications to facilitate widespread, immediate coordination and real-time assessment for disaster response.

What Our Customers Say
