School psychologists strive to improve the educational experience for all children. They are the school-based experts on many issues including school violence, special education, learning disabilities, & school & community-linked children’s health services. The California Association of School Psychologists is a 70 year old professional association with over 2,000 members. We provide continuing professional development through regional training programs & an annual convention. Publications of the Association include a quarterly newsletter *CASP Today* & a quarterly, peer-reviewed research journal *Contemporary School Psychology.*
